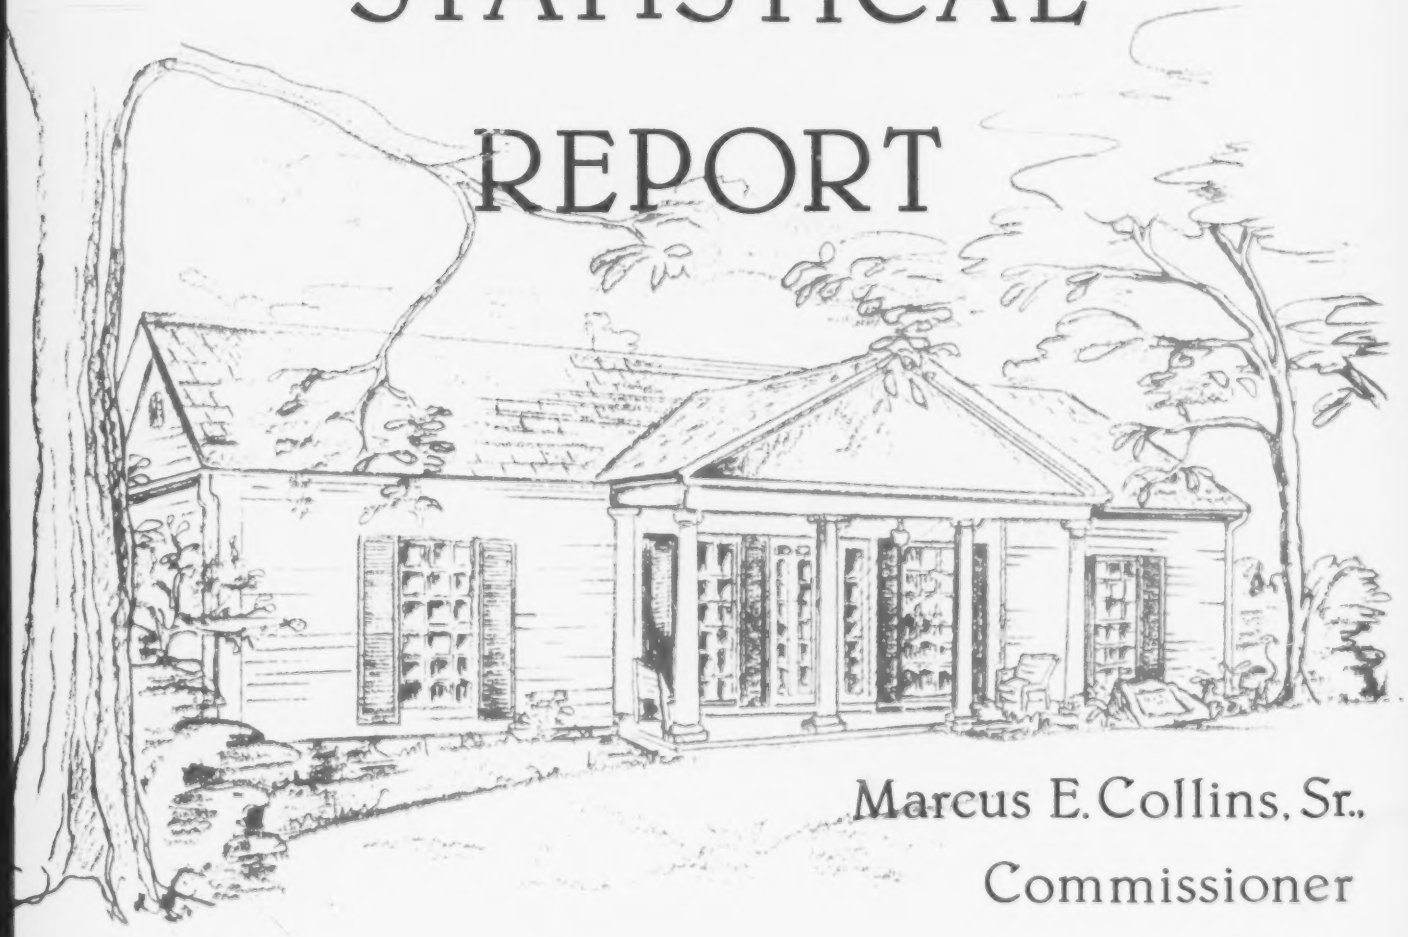
STATISTICAL REPORT



Marcus E. Collins, Sr.

Commissioner

The Little White House - Warm Springs, Georgia

Department of Revenue

State of Georgia
Atlanta 30334

Marcus E. Collins, Sr.
Commissioner

November 27, 1990

The Honorable Joe Frank Harris, Governor
and
Members of the General Assembly
State of Georgia
Atlanta, Georgia 30334

Governor and Members:

As required by law, I herewith submit to you the Statistical Report of the Department of Revenue for the fiscal year ending June 30, 1990.

Net collections for the fiscal year totaled $6,802,401,679, an increase of $715,621,157 over the previous fiscal year. This increase was the largest dollar amount in the Department's history. The 11.8% total increase was primarily in response to the Sales Tax rate increase to four percent on April 1, 1989.

The goal of this Department is to provide for Georgia the fairest and most efficient Revenue Department in the country. Our continuing progress toward achieving this goal is directly attributable to the dedicated and quality work performed by our employees and the excellent cooperation we receive from you, your respective staffs, and our associated agencies.

Respectfully submitted,

Marcus E. Collins Sr.

Marcus E. Collins, Sr.
Commissioner

MEC:bf

An Equal Opportunity Employer

FOREWORD

Tax Data Available by County

Personal income tax returns have been tabulated by county and are shown on pages 24,25 and 26 in Table 12. Table 13, beginning of page 27, shows sales and use tax collection with a growth index; assessed property value of the gross general digest, net general digest and public utility digest; and motor vehicles by major type. Table 14, beginning on page 32, presents the counties by population and the size or magnitude ranking using income, sales, motor vehicle and property digest information found in the two preceding tables. The four right hand columns give each county as a per capita amount so an alternate method of comparison can be made.

Table 16 and 17 on pages 39 and 40 list the property tax millage rate by county in an alphabetic and numeric series. The alphabetic table 16 gives the reader a quick access to a given county's millage rate. Table 17 gives the reader a quick method of comparing a given millage rate numerically with the other counties.

Table 18 on page 41 display the gross intangible tax assessment by county.

The Revenue Department research staff will furnish various statistics in line with present unpublished data not subject to disclosure law confidentiality.

Taxes administered by the Revenue Department.

SALES AND USE TAX

The Sales and Use Tax was begun in March, 1951, in Georgia at a 3% statewide rate. Georgia was the 30th state to use this tax source and there are presently 45 states using it. The tax has been one of the largest state revenue sources since it was adopted and presently produces one-third of the state-generated tax revenue. This statewide rate was increased to 4% on April 1, 1989.

An additional 1% was added in Fulton and DeKalb Counties as a dedicated revenue for the construction and operation of the Metropolitan Atlanta Rapid Transit Authority. More than one hundred and sixty-five million dollars were collected for M.A.R.T.A. in the past fiscal year by the Revenue Department. A 1% Local Option Sales Tax also generated four hundred and seventy million dollars in revenue for 139 county governments, 400 municipal governments and ten schools districts during the past fiscal year. A special 1% Sales Tax began July 1, 1985 and produced two hundred and eighty-four million dollars for 94 county government participants during the past fiscal year.

The Sales and Use tax has been a consistent revenue source with only minor changes in the law since its inception. About 80% of the Georgia Personal income is represented in the collections of this tax each year. Although this is an overall proportional tax, most people agree that it is slightly regressive in that lower income households spend a larger percentage of their income on items subject to the sales tax than do higher income households.

Sales and Use tax is shown by:

Commodity	pages 15, 16
County	" 27,28,29,30,31
County ranking, sales dollars	" 32,33,34,35,36,37
Total Collections	" 1,7,8,9,31

INDIVIDUAL INCOME TAX

The individual income tax was initiated in 1929 and for two years was assessed at one third of the federal rate. A graduated system was begun in 1931 and revised in 1937 to essentially the present graduated scale used by the Georgia joint filer today. Several refinements such as withholding, estimated tax, and new graduated schedules for certain types of filers have been introduced over the years.

The tax, unlike sales and motor fuel, was handicapped at creation and only allowed to tax the affluent incomes. The basic allowance (exemptions and deductions) relieved all but a small percentage of the Georgia families from paying state income taxes. With the inflationary rise of income, the basic non-taxable income allowances become a smaller percentage of this income so that today four-fifths of the Georgia families pay state income taxes.

The individual income tax is considered to be "levered" because it changes 1.6 times the change of income activity. This leverage is shown as an "Income elasticity ratio" in the last column in Table H-4 on page 10.

Personal income tax information is shown by:

County	" 24,25,26
Gross income comparisons .	" 32,33,34,35,36,37
Charts	" 7,9

MOTOR FUEL TAX

The Motor Fuel tax is the oldest major State tax presently in use. Georgia was on of ten states that adopted this tax source in 1921. Five states had initiated the use of Motor Fuel taxation in 1919 and 1920. All states (48 back then) began motor fuel taxation by 1929 and this was the largest state tax in Georgia and most other states until after World War II.

The motor fuel tax rate was increased by one cent a gallon in June, 1971, to 7 1/2 cents for the first change in 16 years. A rate of 7 cents per gallon was in effect in January, 1950, so that in 38 years the rate has increased less than 8%.

After being the state's top revenue source for three decades, the new 3% sales tax pushed motor fuel back to number two during the 1950's and 1960's. The individual income tax, with its graduated scale and aided by an inflationary rise of incomes, finally relegated motor fuel to the number three position in the 1970's. In spite of its less lofty position on the team, this hard-working motor fuel tax generates as much state revenue today as the whole tax system could produce in the early 1950's.

Motor fuel taxes are presented on pages 1,7,8, and 18.

CORPORATE INCOME TAX

The corporation income tax was initiated in 1929 and for two years was assessed at one third of the federal rate. The rate was changed to: 4% in 1931; 5 1/2% in 1937; 7 1/2% in 1949-50(temporarily); 5 1/2% in 1951, 4% in 1955 with Federal taxes no longer deductible; 5% in 1964; and the present 6% went into effect in 1969.

The corporation income tax has been a major tax source since its inception by the state. It was the fourth largest state revenue producer for over two decades. The battle for third largest revenue producer has been won by the corporation income tax in the last five fiscal years over the old reliable motor fuel tax. A corporation net worth tax is administered in conjunction with the income tax program. Pages 1,7,8,9,10 and 38 shown collections from corporation income tax and net worth tax.

TOBACCO TAXES

The taxation of cigars and cigarettes was begun in 1923 by Georgia. The rate on cigarettes had gradually increased to 5 cents a pack by 1955, in 1964 it was raised to 8 cents, and in March, 1971, to the present 12 cents a pack. Most states have increased cigarette taxes rapidly in the last 15 years so the Georgia rate has remained approximately average. The revenue from this tax is under 2% of the Department's collections and almost equals the combined state collections of liquor and beer. Pages 1,7,8 and 20 show detailed cigarette collection data.

LIQUOR, BEER AND WINE TAXES

The sales of alcoholic beverages was begun in the mid 1930's after Prohibition was repealed nationally. The local option concept prevails in Georgia in the licensing and sale of alcohol beverages. This means that any city or county which wants to provide for the licensing of distilled spirits can do so only after holding a public election, to determine whether the citizens want it. If they don't, then the question is dropped for two years at which time another election may held. If the vote indicates that the citizens do want to license the sale of spirits in their area, then sale and manufacture in the area is permitted, provided the manufacturer, wholesaler, or retailer has obtained a current valid license from the State Revenue Department, after obtaining all necessary licenses from the city or county in which the licensee will have his place of business. Alcoholic beverage collections are shown on pages 1,7,8 and 20.

MOTOR VEHICLE TAGS AND TITLES

The motor vehicle license law was initiated in 1910 and a title law was added in 1963. A title is to a motor vehicle what a deed is to a piece of real estate. The law requires you to secure a title at the time your vehicle is purchased.

Non-resident who move to Georgia permanently, as opposed to those who are merely sojourning, must purchase a Georgia tag within seven(7) days after establishing their residence in Georgia. Persons employed on a temporary basis in Georgia or just passing through are not required to register their vehicles if they remain in the state for less than 30 consecutive days. Military personnel are not required to register vehicles in Georgia as long as they display valid licenses from their home states. However they may purchase Georgia plates if they wish. Out-of-state students may use vehicles in Georgia without purchasing a Georgia tag, provided they display valid licenses from their home states.

Application for tags and/or decals for all vehicles, and payment for ad valorem taxes on the vehicles are made through the county tag agent. The county tag agent is the county tax commissioner or tax collector. The county tag agent issue all the tags or renewal decal except those for certain large trucks. These are issued by the Department of Revenue. Applications for title may be submitted to the county tag agent or to the Department of Revenue.

Each license tag application must be filed in the county of legal residence of the person who owned the vehicle on January 1. If the vehicle is used in connection with some established business enterprise located in another county, the license application must be filed in the county where the business is located. Motor vehicles owned by non-Georgia residents must be registered in the county where they are located.

By law, the tax collector or tax commissioner of each county is charged with the duties of tag agent. Any inquiries or needs concerning motor vehicles registration and licensing should be directed to the tag agent in your county. Application for a renewal decal on an existing tag must be made each year the earlier the better. Motor Vehicle Information is shown on pages 1,7,8,21,27,28,29,30 and 31.

PROPERTY TAX

The Property Tax Division oversees all forms of taxation with respect to real property, personal property, utilities, automobiles, intangible property, real property recording, property abandonment, and intangible property recording.

The ad valorem property tax is the primary source of revenue for local government units in Georgia, including cities, counties, and school districts. In addition, a small amount of property tax revenue goes into the State Treasury. County and city tax officials and administer the tax but the State Revenue Commissioner exercises some supervisory authority to assure that the tax is administered uniformly throughout the state and in accordance with the law.

The ad valorem tax is based upon the "value" of the real and personal property which is subject to the tax. The tax rate, or "millage", in each county is set annually by the Board of County Commissioners or other governing authority of the taxing jurisdiction. A tax rate of "one mill" represents a tax liability of $1 per $1,000 of assessed value. The average county millage rate in 1989 was under 25 mills; the amount collected for the State in each county was only 1/4 mill. Pages 1,8,22 and 23 shows collections from property taxation. Additional related property information shown on county tables beginning on page 27.

UTILITIES

The ad valorem tax on public utilities is a centralized system operated by the Property Tax Division of the Revenue Department. There are 176 utility systems consisting of 14 Railroad, 47 Telephone, 53 Electric, 4 Gas, 23 Municipal Gas, 6 Pipeline, and 29 Airlines Flight Equipment. Three basic factors are reviewed in arriving at assessment of utilities: Fair Market value of the System, portion of the system in Georgia, and the portion of the system in each taxing jurisdiction.

There are 265 equipment car companies assessed by the utility digest section based on Georgia usage.

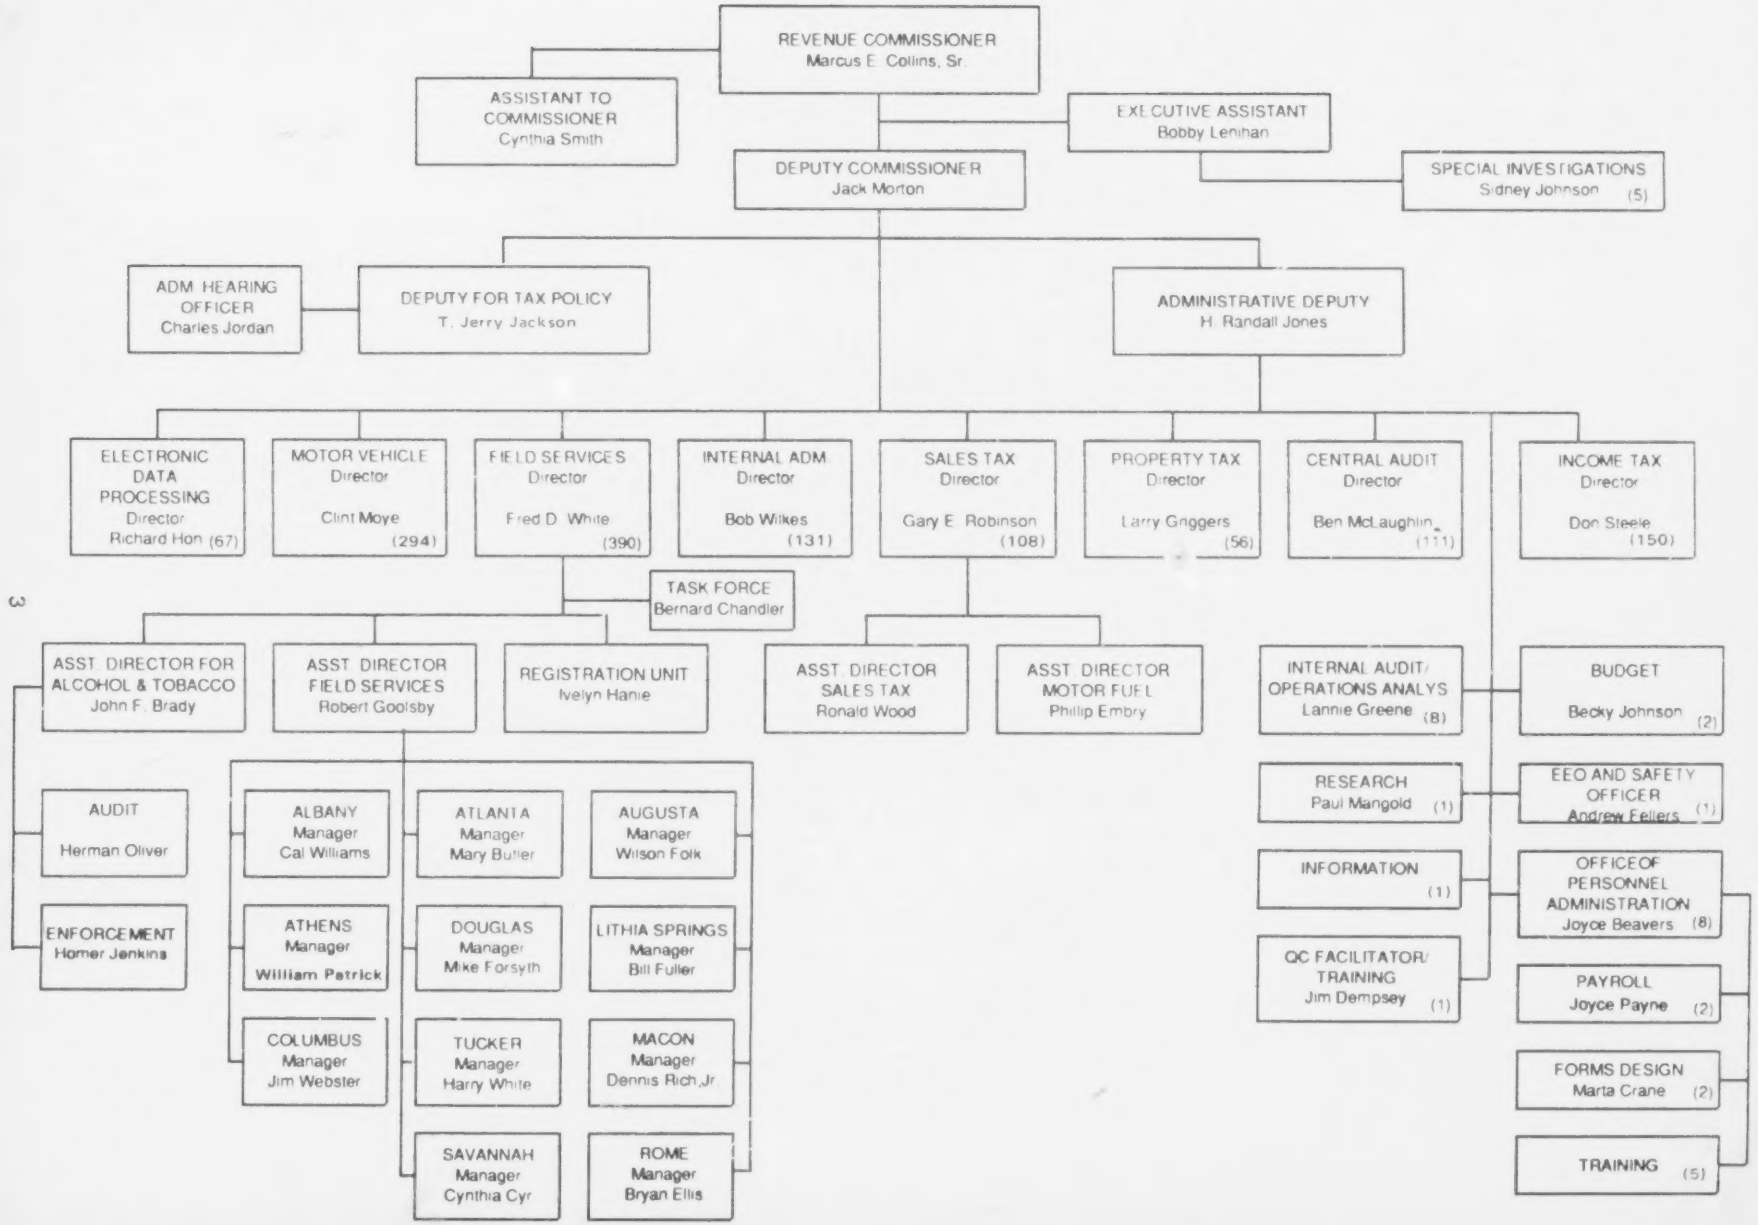
DEPARTMENT OF REVENUE

GOVERNOR



ORGANIZATION OF THE DEPARTMENT OF REVENUE

In addition to the offices of State Revenue Commissioner and Deputy Revenue Commissioners, the principal organizational unit of the Department of Revenue is the "Division". The Department is currently organized into eight divisions with the following functions:

CENTRAL AUDIT

Utilizes a staff of professional tax specialists to audit tax accounts (Income, Sales, Motor Fuel and Alcohol). Audits are performed both within the State and throughout the Nation.

ELECTRONIC DATA PROCESSING

Maintains and enhances computer application programs and systems for all areas of tax administration of the Revenue Department. Develops new application programs as requested.

Provides primary data entry support for the individual income and intangible tax systems. Provides data entry backup support to other tax systems.

FIELD SERVICES

Provides taxpayer information and assistance at nine regional office locations. Continuously examines taxpayer registrations, compliance with filing deadlines, and collects all delinquent accounts.

Enforces all laws and regulations pertaining to the manufacture, possession, transportation, and sale of legal and illegal alcoholic beverages within the State. The Division is charged with licensing the sale of distilled spirits, malt beverages, wine, cigars, and cigarettes. It also has the responsibility for enforcing the Motor Fuel Tax Laws. A criminal investigative staff performs specialized investigations, to include investigations to keep organized crime and other persons of bad character out of the industry in cooperation with other state and local enforcement agencies.

INCOME TAX

Administers the Income Tax laws imposed on net income of individuals, fiduciaries and corporations; administers the corporation Occupation or License Tax. Issues regulations pertaining to Income Tax Manages all taxpayer protests and hearings.

INTERNAL ADMINISTRATION

Provides supporting services to other Divisions of the Department. Included are centralized processing cashiering and accounting activities, procurement and records management, mail handling, supplies and other support functions.

MOTOR VEHICLE

Issues license tags and certificates of title and records liens and security information on all vehicles registered in the State of Georgia. Provides information on all vehicles for local and state enforcement agencies.

PROPERTY TAX

Administers all laws and regulations with respect to Property Tax. This Division is charged with the overall supervision of the Ad Valorem tax including the approval of all county tax digests, the assessment of all public utility property, the preparation of the assessment manual for motor vehicle property and the administration of county property revaluation programs. This Division also administers the Intangible Tax, and the Real Estate Transfer Tax. Also this Division administers law and regulation as set forth in the Unclaimed Property Act.

SALES AND USE TAX

Administers all laws for Sales and Use Tax. Issues regulations pertaining to Sales and Use Tax and manages all taxpayer protest, exemptions and hearings. Also administers the 1% MARTA, Local Option and special Sales Tax; separately accounts for the 3% sales and use tax on motor fuel.

Administers all laws for Motor Fuel Tax, Motor Carrier Fuel Tax, and Highway Use Tax. The Unit is charged with licensing Motor Fuel distributors and permitting motor carriers. Also, the Unit issues regulations and manages all taxpayers protest and hearings pertaining to Motor Fuel laws.

REVENUE HIGHLIGHTS FOR THE FISCAL YEAR ENDED JUNE 30, 1990

Collections by the Department of Revenue for the fiscal year totaled $6,802,401,679. This was an increase of $715,621,157 or 11.8% over the prior fiscal year. The dollar amount of increase exceeds the previous record $555 million in FYE June 1985 by more than $160 million.

The increase in the State sales tax rate to four percent caused a surge in sales and use tax receipts. The Georgia Sales and Use tax (state and local) system produced $3,670 million of total revenue to regain first place as the major tax source for all Georgia governments.

Most of the Department's revenue increase of 11.8% was produced by the state sales tax. Of the $715.6 million departmental increase, the Sales tax provided $627 million or 10.3%, while the remaining tax source generated $88.6 million or 1.5% of the increase. Very little of the sales tax increase was created by increased sales; most was attributable to the state sales tax increase to four percent.

The income tax has been the leading tax source in Georgia for several years prior to the current fiscal year. Money collected from income taxes was $3,343 million during the current fiscal year. Individual income taxes increased to $2,868 million while the corporation income tax declined to 475 million. The income taxes produced a combined increase of $92 million for the fiscal year.

All other taxes produced a net decline of $3.4 million outside the two major sources of sales and income. The almost $10 million decline in estate tax collection was the primary cause of the decline in the "all other taxes" group of the department.

I would mention that ad valorem property tax, the third largest Georgia tax source, is now estimated to be into the three billion dollar range of collections. The property tax is the primary tax source of most local governments and local education. While some property tax collections are received by the Georgia Revenue Department, the one-quarter of mill state tax rate is less than 1% of total property taxes levied statewide.

Commissioner Collins has been elected president of the Southeastern Association of Tax Administrators. Mr. Collins will serve a one year term ending in July of 1991.

Paul Mangold, the preparer of the Department of Revenue Statistical Report for more than two decades is retiring with the completion of this issue. Mr. Mangold has been a very loyal employee and an integral part of the Department during his tenure. He has answered many thousands of questions and furnished tax data and analysis for use by other State agencies, the General Assembly, private research entities, and our local governments as well as for similar entities in other states.

TABLE H-1. NET REVENUE COLLECTIONS BY GEORGIA DEPARTMENT OF REVENUE FOR FISCAL YEARS ENDED IN 1939 THROUGH 1990
(Net of Commissions and refunds)

FISCAL YEAR	AMOUNT	FISCAL YEAR	AMOUNT	FISCAL YEAR	AMOUNT
1939	$ 40,891,239	1956	$ 283,154,154	1973	$1,298,983,504
1940	44,170,069	1957	300,953,308	1974	1,454,888,357

(Fiscal year ended June 30 of year shown)

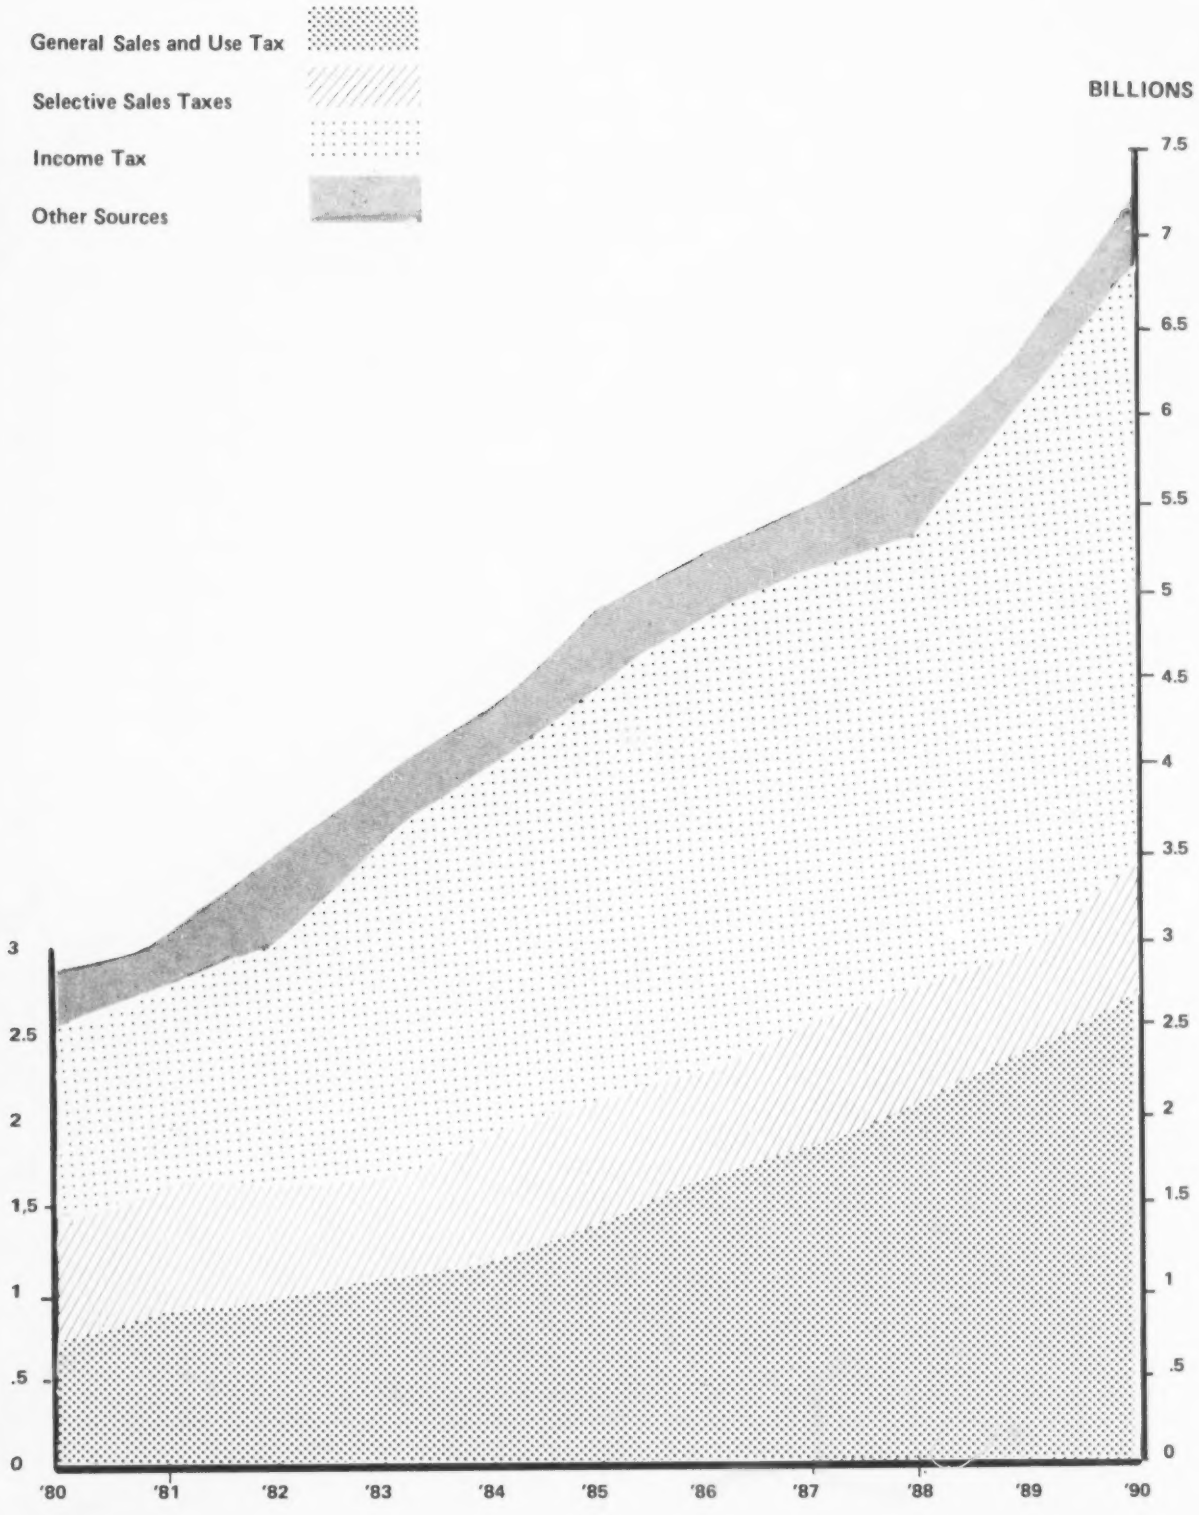

TABLE H-3. TREND IN GEORGIA'S TOTAL STATE TAX REVENUES BY MAJOR SOURCE 1980 - 1990 (Millions of dollars)

Fiscal Year	Department of Revenue	Other Agencies	Grand Total (1)	Breakdown of grand total by major source			
				General Sales and Use	Selective Sales Taxes	Income Taxes (2)	Other Taxes or Fees
1980	2,625	97	2,721	1,006	497	1,112	106
1981	2,911	103	3,014	1,108	497	1,289	120
1982	3,162	114	3,276	1,189	503	1,451	133
1983	3,389	110	3,499	1,271	507	1,581	140
1984	3,819	126	3,945	1,461	537	1,780	167
1985	4,374	142	4,516	1,633	568	2,134	181
1986	4,739	157	4,896	1,735	591	2,358	212
1987	5,091	216	5,307	1,821	664	2,593	238
1988	5,533	233	5,766	1,941	677	2,865	283
1989	6,087	243	6,330	2,113	689	3,251	277
1990	6,802	244	7,046	2,740	703	3,343	260
1980	96.5%	3.5%	100%	37.0%	18.2%	40.9%	3.9%
1990	96.5%	3.5%	100%	38.9%	10.0%	47.4%	3.7%

(1) Because of rounding, detail may not add to totals; percentages computed from unrounded figures.
(2) Since January 1966 corporation license taxes have been reported on a combined form with corporation income taxes and, because of reporting errors, a precise separation is not available.

TABLE H-4 - COMPARATIVE TRENDS IN GEORGIA'S PERSONAL INCOME AND STATE INCOME TAX RECEIPTS, 1973 TO 1990

Fiscal Year ending June 30 (1)	Total personal income		Personal income tax receipts		"Income elasticity ratio" (2)
	Amount (millions of $)	Change from prior year (%)	Net amount ($1,000)	Change from prior year (%)	
1973	19,256	12.9	285,091	22.5	1.744
1974	21,881	13.6	340,705	19.5	1.434
1975	24,153	10.4	373,454	9.6	.923
1976	25,942	7.4	413,188	10.6	1.432
1977	28,966	11.7	495,616	20.0	1.709
1978	32,071	10.7	604,084	21.9	2.047
1979	36,442	13.6	729,479	20.8	1.529
1980	41,027	12.6	872,836	19.7	1.563
1981	45,812	11.7	1,037,181	18.8	1.607
1982	51,830	13.1	1,181,832	13.9	1.061
1983	55,803	7.7	1,342,051	13.6	1.766
1984	61,211	9.7	1,466,066	9.2	.948
1985	68,920	12.6	1,718,317	17.2	1.365
1986	75,394	9.4	1,944,294	13.2	1.404
1987	82,410	9.3	2,149,235	10.5	1.129
1988	89,595	8.7	2,391,771	11.3	1.299
1989	96,779	8.0	2,731,850	14.2	1.775
1990	103,313	6.8	2,867,914	5.0	.726

(1) Personal income amounts are for immediately preceding calendar year.
(2) Ratio of the percentage change in tax receipts to percentage change in personal income. This is a measure of the sensitivity of personal income tax revenue to changes in personal income. A ratio of 1.000 would indicate identical rate of change for income and tax yield.

Total	2,350,547,378	223,782,053	263	279	283	210	220	221

*Adjusted gross sales tax receipts relate directly to taxable sales in Georgia by Georgia firms. Gross use tax receipts relate directly to taxable purchases by Georgia firms from suppliers outside Georgia. The above tax amouns represent three percent of gross taxable sales (or purchases), with adjustments for vendors compensation paid, penalty and interest payments, refunds, returned checks, overpayments, and underpayments. State tax rate increased from 3% to 4% effective April 1, 1989. INDEX adjusted to eliminate tax rate increase impact.

Table 4. - MOTOR FUELS AND MOTOR CARRIERS: DETAILED REVENUE DATA FOR FISCAL YEAR ENDED IN 1990

MOTOR FUELS

GROSS TAXABLE GALLONAGE BY PRODUCT

Gasoline	3,519,413,907
Diesel fuel	870,179,849
Liquefield	8,789,244
Total, motor fuels	4,398,383,000

TAX REVENUES BY PRODUCT (DOLLARS)

Gross collections	
Gasoline	267,363,565.92
Diesel fuel	65,280,710.93
LPG	659,161.88
Subtotal	333,303,438.73
Penalties and interest	421,406.95
Total	333,724,845.68

COMMISSIONS DEDUCTED BY DEALERS AND DISTRIBUTORS

Gasoline	1,941,536.48
Diesel fuel	467,965.52
LPG	3,882.39
Total	3,413,384.39

REFUNDS AND OTHER ACCOUNTING ADJUSTMENTS	1,574,201.08
Tax revenue, motor fuels, net of commissions and refunds	329,737,260.21

MOTOR CARRIERS

SOURCE AND AMOUNT OF REVENUE (DOLLARS)

Motor carrier fuel (mileage) tax	
Gross tax receipts	3,530,589.98
Interest and penalties	45,105.75
Subtotal	3,575,695.73
Adjustments (refunds, etc.)	(-) 5,666,076.60
Net receipts, mileage tax	(-) 2,090,380.87

MOTOR FUEL TRUCK REGISTRATION FEES

Decals	1,987,209.00
Temporary Permits	457,873.03
Subtotal	2,445,082.03
Adjustments,net	626,642.82
Net receipt, motor fuel truck fees	3,071,724.85
Total net receipts motor carriers tax and fees	981,343.98

MOTOR FUEL DISTRIBUTORS

Net receipts, motor fuel distributors' fee	2,850.00

*Indicates 1988 General Property Digest Amount

(1) Multi-store sales tax returns were analyzed in calendar year 1967. This study established that these chain stores operated mostly in the larger trade centers. Multi-stores accounts collect approximately 40% of t[illegible]otal sales tax and this bas been distriubted as accurately as possible to the county of origin of store locations. Estimated distribution by county of receipt from February, 1989 through January 1990 corresponds to business activity of January-December 1989. Adjusted gross use tax receipts relate directly to taxable purchases by Georgia firms from suppliers outside Georgia. The above tax amounts represent 3.75% of gross taxable sales (or purchases) without adjustment for vendors' compensation paid, penalty and interest payments, refunds, returned checks, overpayments and underpayments. The county estimates indicate place of sale rather than "consumer buying power" by place of residence. "Other" includes contractors and other categories not distributed by county. County estimates for years before 1967 are not directly comparable with the estimates for 1989. Sales tax adjustment made in 1975 for multi-store allocation by county for greater reporting accuracy. Tax rate increased from 3% to 4% on 4-1-1989. Growth index adjusted to elminate tax rate increase impact.

(2) Net Digest amounts reflects state homestead exemption requirements only. Some counties have expanded homestead exemptions for local taxing purposes.

GEORGIA LABOR MARKET TRENDS

VOLUME XVII, NUMBER 5
(May 1991 data)

Goods, services up from April

Georgia's nonagricultural wage and salary employment increased 12,700 from April, but declined by 31,600 jobs from May 1990. May 1991 employment is only slightly above the January 1991 level; January is normally the month at which employment reaches its lowest level for the year.

Construction rose by 300 over the month, but declined by a substantial 13,800 from May 1990. General building was down by 200 over the month and down by 2,000 over the year. Heavy construction declined 100 from last month and 2,500 annually. Special trades contracting rose 600 from April, its second consecutive monthly gain following seven months of declines. The sector lost 9,200 from last year.

The manufacturing division eked out a small gain from last month, but continued to decline over the year. Almost all the monthly gain was in the nondurable goods industries, while most of the yearly decline occurred in nondurables.

Food and kindred products rose from both reference periods. Bakery products rose 300 from April, and canning and preserving, also up 300, experienced a normal seasonal increment.

Textile mill products rose 500. Employment increased by that number in knitting mills because of the recall of furloughed workers. Yarn and thread mills rose modestly, and floor covering mills dropped slightly.

A gain of 800 in men's and boys' clothing drove employment in the apparel industry up this month. Increased demand allowed the recall of some furloughed workers.

Annually, apparel declined by 2,300 jobs.

Employment in transportation and public utilities rose by 200 from April. The transportation sector increased 500, nearly all of it in air transportation because of hiring at one major commercial carrier. The communication industries dropped 300, while utilities was up slightly.

The division declined 5,400 from last year. This was primarily because of the bankruptcy and subsequent shutdown by Eastern Airlines.

Continued

New developments

America West Airlines will establish a presence at Atlanta Hartsfield International Airport later this year. The carrier currently serves markets primarily in the Southwest, and the move into Atlanta represents its first move into the Southeast. It is expected to offer nonstop flights into Phoenix and Las Vegas with connections to some 55 additional cities. America West, which has hubs in both Phoenix and Las Vegas, is America's ninth largest airline. The effect on Atlanta employment is not known at this time, but it is not expected to be significant.

Whirlpool Corporation broke ground recently for a new 650,000-square-foot regional distribution center at SouthPark in Clayton County. In addition, Whirlpool will utilize the old Richway warehouse in Morrow as a parts distribution center. The facility under construction will distribute Whirlpool appliances throughout the Southeast. Opening is slated for March 1992. A company spokesman declined to say how many people will be employed in the facility, which will replace a smaller one in South Atlanta.

Georgia Department of Labor
Working For You!

AL SCOTT, COMMISSIONER

Goods, services up from April

Continued from page 1

Trade was up 4,000 from last month, almost all of it in the retail sector. More than half the monthly increment occurred in eating and drinking places. Much of the gain is seasonal. Food stores rose by 600.

From last year, trade dropped 10,300, again mostly in the retail sector. Most of the retail industries declined.

Finance, insurance, and real estate rose 500 from both reference periods. Monthly fluctuations were minor, but the annual picture was quite different. Real estate employment dropped 1,600, and finance went down 400 while insurance went up 2,400.

Employment in the services industries rose from both reference periods, up 2,800 from April and 17,200 from last year. The largest over-the-month increase came in amusement and recreation, up 1,400. This was a normal seasonal increase.

Government increased from both reference periods. It was up 2,500 from last month and up 2,900 from May 1990. The monthly increase in state government was largely due to increased seasonal employment by Lake Lanier Island Authority and Stone Mountain Memorial Association. Employment by the Georgia Department of Corrections also increased.

Local government rose 1,000 over the month, a normal seasonal increase.

New developments

Continued from page 1

Great American Group, a restaurant group that concentrates on family dining establishments, will bring its headquarters to Gwinnett County. The new office will combine operations currently in Marion, Ohio, and Lexington, Kentucky. Great American operates 123 restaurants in 10 states and is the nation's largest franchiser of Denny's restaurants. About 25 people will be employed in the new facility.

National Linen Service of Columbus will be closed permanently around the first of August. About 75 people will lose their jobs.

When **Dominion Engineered Textiles**, Inc. closes its carding, spinning, and support operations at its Hogansville plant more than 100 people will be unemployed. The closing is slated to take place July 31.

Rich's has received approval to construct its first Savannah store from the bankruptcy court judge handling the Federated Department Stores bankruptcy case. The company will spend more than $13 million to build a 135,000-square-foot store in Oglethorpe Mall.

NOTE: These preliminary estimates were prepared in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics, based upon monthly reports submitted by selected employers throughout Georgia. The estimates include all full- and part-time wage and salary workers who were employed during or received pay for any part of the pay period that includes the twelfth of the month. Proprietors, domestic servants, self-employed persons, unpaid family workers, and personnel of the armed forces are excluded. Estimates based on 1990 benchmark. Totals may not add because of rounding.

GEORGIA LABOR MARKET TRENDS

VOLUME XVII, NUMBER 6
(June1991 data)

Small Employment Growth from May

Georgia's nonagricultural wage and salary employment grew by 5,100 jobs from last month, although the state has lost more than 50,000 jobs since June of last year. The majority of the monthly increment was in the goods-producing industries and was almost evenly divided between construction and manufacturing. More than 80 percent of the annual loss was in the same sector with manufacturing losing proportionately somewhat more than construction.

Construction employment rose 1,600 over the month, most of it (1,300) in general building. Special trades contracting was up 200 and heavy construction rose 100 from May.

Annually, construction fell 17,700. More than half the loss (9,900) occurred in special trades contracting. General building dropped 4,600 from last year, and heavy construction lost 2,600.

Employment in manufacturing increased slightly from May, although the division lost 24,400 from June 1990. Most of the monthly gain was in nondurable goods; most of the annual decline occurred among the durable goods.

Apparel and other finished textile products rose 1,200 over the month because of the recall of workers who had been furloughed in order to adjust inventories. Annually, the industry lost 1,200, part of a pattern of decline that has extended over several years. The highest June employment level in a decade

Continued

New developments

Metropolitan Mattress has opened three new stores in the Atlanta area and plans to open another dozen within the next two years, according to company president Roger Magowitz. Metropolitan Mattress is a part of Maggie Enterprises Inc. of Hampton Roads, Va.

Mindis International, an Atlanta-based recycling company has purchased the old General Motors Lakewood plant and will convert it into a recycling plant. They will spend some $56 million over a five year period to renovate the complex, which will also house Mindis company headquarters. The company will eventually employ 250-500 workers in the facility.

Sero Company, Inc., relocated its corporate headquarters and national distribution center from Branford, Connecticut, to Cordele, a move that created 50 jobs for area residents. The company is considering another expansion that could add 80 new jobs to its Cordele operation, according to Sero President Gene Morris. A new product line is being contemplated, possibly a line of men's and women's jeans.

Small Employment Growth from May

Continued from page 1

occurred in 1984 when the industry had 75,900 jobs; in June 1991, there were 60,400.

Machinery, except electrical, was down 900 from last month. The primary reason for the over-the-month decline was a drop in the manufacture of lawn and garden tractors and home lawn and garden equipment. This industry normally declines in the latter part of the summer, but the skid appears to have come a couple of months early this year because of the sluggish economy.

Annually, the industry dropped 2,200. Industrial machinery and construction and metal working machinery each lost 300, and service industry machinery declined 400. The remainder of the decrements were scattered throughout the remaining segments.

Transportation and public utilities employment went up 500 from last month. The gain was concentrated in the transportation sector, specifically in motor freight and warehousing. It appears that increased manufacturing output has created a greater demand for trucking.

Annually, the division dropped 5,600. Most of the decline came in the transportation sector, largely in air transportation.

Both wholesale and retail trade experienced declines from both reference periods. Eating and drinking establishments registered a healthy increase from May, but most of the remainder of the trade industries lost business during the month. The annual decline affected nearly every segment as well.

Finance, insurance, and real estate employment was little changed from last month. Annually, insurance rose 2,100, offset by an identical loss in real estate. Financial institutions dropped 700.

Services rose from both reference periods. Health services was up by 1,100 over the month and up by 8,900 over the year. This industry normally has substantial increases between May and June when newly graduated professionals begin work. Graduating students in medical professions will find it much easier to find employment this year than most other graduating professionals.

Amusement and recreational services was up by 2,400 from May. This is a normal seasonal increase.

Government employment dropped 2,100 from last month. Seasonal declines occurred at the Internal Revenue Service and in state and local education. Seasonal increases were recorded in state and local government. Parks and recreation departments, summer youth programs, and such facilities as the Stone Mountain Authority and Lake Lanier Island Authority instituted summer hiring.

New developments

Continued from page 1

Equifax Inc. has announced that its new Information Service Center will be located in Cobb County in a 68,000-square-foot facility in Wildwood Plaza. About 500 people will be employed there. Some of them will be transferred from the company's 15 regional information centers, and the remainder will be new hires. The center is slated to open in December of this year.

Crisp Pecan Company, Inc., will locate its operations in Cordele in the building formerly occupied by Ace Pecan Company. Crisp Pecan will purchase, shell, and market shelled and in-shell pecans as well as other compatible agricultural products. The new company will create more than 40 full time jobs.

NOTE: These preliminary estimates were prepared in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics, based upon monthly reports submitted by selected employers throughout Georgia. The estimates include all full- and part-time wage and salary workers who were employed during or received pay for any part of the pay period that includes the twelfth of the month. Proprietors, domestic servants, self-employed persons, unpaid family workers, and personnel of the armed forces are excluded. Estimates based on 1990 benchmark. Totals may not add because of rounding.

GEORGIA LABOR MARKET TRENDS

VOLUME XVII, NUMBER 7
(July 1991 data)

July Employment Declines

Georgia's nonagricultural wage and salary employment declined 14,300 from June and 52,100 from July 1990. The goods-producing industries registered a small over-the-month increase; all the decrease occurred in the service-producing industries. Annually, both sectors lost employment.

Construction employment rose 1,700 from last month, the second consecutive month of increased activity. General building went up 1,200, special trades contracting rose 300, and heavy construction gained 200.

The building trades declined 17,400, or 11.3%, from last July. Every segment lost employment, but more than half the loss occurred in special trades contracting.

The manufacturing division lost jobs from both reference periods. Although both durable and nondurable goods shared in the annual decline, nondurables eked out a small over-the-month gain.

Primary metals lost 300 from last month and 1,600 from last year. The monthly decline was caused by a shutdown at one steel mill to reduce excess inventory.

Industrial machinery also declined from both reference periods. The current drop was seasonal, caused by a decrease in the manufacture of farm and garden machinery and equipment.

Although still down from last year, transportation equipment

Continued

New developments

Builders Square Inc., the San Antonio-based building supply company that entered the Atlanta market only four years ago, has now withdrawn, leaving a clear field for the home-grown Home Depot chain. Builders Square executives said that their four Atlanta stores were profitable, but not profitable enough to warrant continued investment. They will therefore close the Atlanta stores following several weeks of going-out-of-business sales. Builders Square employs about 450 workers in the four stores.

NCR Corporation will expand its Duluth facility when it closes a Cambridge, Ohio, plant next year. A company spokesman said that about 150 employees will transfer to Atlanta and some 60 more will be hired locally. The Duluth plant, which currently builds electronic cash registers, will also begin to make cash register scanners.

Unisys Corporation has announced that it will lay off 10,000 people nationwide by the end of June 1992. Unisys has about 600 employees in the Atlanta area. A company spokesman declined to say how many of these employees will be laid off.

July Employment Declines

Continued from page 1

gained 1,100 from June. The increase stemmed from gains at a major aircraft manufacturer which has recalled some furloughed workers and transferred others from another facility.

A net monthly loss of 400 in textile mill products concealed considerable internal fluctuation. Traditional two-week shutdowns for vacation during the first two weeks of July led to a decline of 1,000 in broadwoven fabrics. Although workers who qualify for vacation pay are counted as employed while the mills are shut down, those who do not are technically unemployed. Employment in yarn and thread mills grew by 500 because of the recall of furloughed workers.

Apparel and other finished textile products dropped 700 from last month. Small decrements were scattered throughout the industry.

Monthly employment gains in airline transportation and utilities were completely offset by a decline in communications. Annually, transportation and public utilities lost 6,800, shared by transportation and communications.

Although employment levels were considerably lower than last year, trade recorded a small increase from last month. More business in eating and drinking establishments more than offset losses in several other segments. Most of the yearly decline occurred among retail establishments, but wholesale trade suffered to a lesser degree also.

Finance, insurance, and real estate gained 600 from June, all of it in financial institutions and insurance agencies. From last year, the division had a net loss of 400. Gains in insurance were insufficient to offset substantial declines in real estate and a smaller drop in financial institutions.

Services lost 2,200 from last month. Most of the decrease was a seasonal decline in private education, although business services recorded a small loss as well. The division grew by 10,100 from last year, most of it in health services.

Government lost 14,300, most of it in state and local education. This was a normal seasonal decline. From last year, the division gained 1,400, all of it in state and local education and local government.

New developments

Continued from page 1

Hancor, Inc., plans a $2 million addition to its Cordele plant, according to a company spokesman. Presently, the company is working 24 hours per day, seven days a week to meet the demand for plastic drainage pipe. The expansion may require doubling of the current work force of 27 by year's end.

First American Bank of Georgia will close as many as 18 of its 52 branches by the end of this year, it was announced recently. The move is expected to save the bank some $9 million per year. About 200 jobs will be eliminated.

Office Warehouse, a Virginia-based discount chain plans to open seven stores in the Atlanta area by the end of the year. How many jobs will result is not known at this time.

JJK Furniture Company, Ltd., of Ontario, Canada, will build a 25,000-square-foot building in the Crisp/Cordele Industrial Park, according to a recent announcement. The company designs and manufactures furniture for hospitals, nursing homes, offices, and schools. The new venture is expected to provide 25 new jobs in its first year.

GEORGIA LABOR MARKET TRENDS

VOLUME XVII, NUMBER 8
(August 1991 data)

Employment Drops in August

Nonagricultural wage and salary employment in Georgia totalled 2,951,400 in August, a decline of 2,300 from July and a drop of 59,900 from August 1990. The July-August tumble was the first in the last 20 years.

All of the monthly decline occurred among the service-producing industries; the goods-producing industries eked out a small gain. Both sectors shared the annual loss, but most of it was in the goods-producing industries.

Construction dropped 3,400 over the month after registering gains in June and July. The division lost 20,800 from last year. General building dropped 1,000 over the month and 4,700 over the year. Heavy construction was down 300 from July and down 3,300 from August 1990. Special trades contracting declined 2,000 from last month and a whopping 12,700 from last year.

Manufacturing was the only division to post a monthly increase of any significance; it rose 4,000. Slightly more than half was in the nondurable goods industries. Much of the increase resulted from the recall of furloughed workers in several industries.

The durable goods industries increased 700, or 0.4 percent from

New developments

OfficeMax, an Ohio-based discount chain partially owned by K-Mart Corporation, plans to go head to head with Office Depot in the Atlanta area. OfficeMax has announced plans to open five stores in the metro area by the end of this year and an additional four in 1992. The number of people to be employed is not known at this time.

Parisian Inc. will open three stores in the Atlanta area in addition to the one already planned for Phipps Plaza, according to a recent announcement. The new stores will be at Town Center in Cobb County, Gwinnett Place, and a mall under construction at I-20 and Turner Hill Road. The four stores will employ approximately 1,400 people.

Delta Air Lines has announced that approximately 1,000 of the 6,600 employees of Pan American World Airways being absorbed by Delta in its partial purchase deal will be transferred to Atlanta. Most of the employees being transferred are administrative and support personnel. If Delta makes a deal for the old Eastern hangar at Hartsfield International Airport, several hundred maintenance employees could become Atlanta area residents as well.

Employment Drops in August

Continued from page 1

July. An annual decline of 11,900 translated into a 5.6 percent loss.

Employment in primary metals increased 600 in August. Workers who had been laid off in July to bring inventories in line with demand returned to work. Employment dropped 1,100 from last year, however.

Industrial machinery and equipment went up 700 from July. Furloughed workers who manufacture farm and garden machinery and equipment were recalled.

Nondurable goods rose 3,300, or 1.0 percent, from last month. From last year, nondurables went down 6,100, or 1.7 percent.

Textiles increased 1,900; more than half the gain was in broad-woven fabric mills. Most of the gain resulted from the recall of workers previously furloughed. The industry lost 3,800 from last year.

Employment also increased in the apparel industry. Most of the monthly and all of the annual gain occurred in women's and children's clothing. Although some of the monthly increase was because of the recall of furloughed employees, the majority of the employing units reporting employment showed over-the-month gains. The women's and children's apparel sector is healthier than the men's apparel industry. Over the past two years, employment in women's and children's clothing has increased slightly, while the number of workers making men's clothing has declined substantially.

Little monthly change occurred in transportation and public utilities. A mild decline in utilities partially offset a gain in the transportation sector. Annually, the division dropped 8,600, almost three-quarters of the decline in transportation.

The trade division decreased by 1,800 from July, nearly all of it among the retail establishments. Most of the monthly loss was in eating and drinking establishments, although department stores recorded small declines.

Annually, trade lost 21,200. Again, most of the decline was in retail trade, although the wholesale sector's loss was proportionately greater than from July to August.

Finance, insurance, and real estate lost 300 from last month, all of it in financial institutions. Annually, the division dropped 1,100, with losses in finance and real estate being partly offset by gains in insurance.

Services dropped 900 from July and gained 5,400 from August 1990. Health services is the only segment that continues to show any significant growth.

Government employment decreased 100 over the month and rose 4,800 from last year. Movement in the education segment was seasonal. All the annual growth occurred in state and local education and local government.

New developments

Continued from page 1

Scientific-Atlanta Inc. has announced a restructuring plan that will cost an unknown number of employees their jobs. The Norcross-based company makes cable television and microwave equipment satellite communications devices, and electronic instruments. Scientific-Atlanta employs about 3,000 people nationwide; some two-thirds of them are based in Atlanta.

International Paper/Masonite Corporation has announced a substantial expansion to its Cordele manufacturing plant. The facility, which currently produces oriented strand board (OSB) will further the manufacturing process, turning the OSB into exterior housing siding. The expansion is slated to be completed in the first quarter of 1992, and staffing will total approximately 300 employees.

Key Airlines is consolidating its operations at Savannah International Airport effective December 19, 1991, according to a company spokesman. Key, which operates a charter service, will have five flights per day into Savannah from cities in the Northeast. Those same planes will be reloaded for flights to Mexico and the Caribbean. The Key operation is expected to increase the Savannah airport's annual passenger load by 50 percent, and Savannah and nearby Hilton Head, South Carolina, will likely receive a substantial boost from tour packages sold on a destination or interim basis.
